Center for Infant and Young Child Feeding and Care, Department of Maternal and Child Health, University of North Carolina, USA <http://www.sph.unc.edu/mch/ciycfc>

aims to create an enabling environment, at the community, state, national and global levels, in which every mother is supported to choose and to succeed in optimal infant and young child feeding and care, and every child will achieve his or her full potential through this best start on life. Its goal is to promote attention to the importance of the mother/child dyad in addressing breastfeeding-mediated health and survival, growth and development by:

- Developing and implementing breastfeeding-friendly health care;
- Educating and mobilizing major future leaders and influential groups;
- Creating the evidence base for action;
- Partnering and leveraging action at the state, national and international levels.
