

resource persons in providing support to mothers who breastfeed. This report is based on a review of the literature and an analysis of three projects; it assesses the impact of interventions, the mechanisms through which behaviours can be changed, and the factors that are necessary to maximize and sustain the benefits of interventions. Author(s): A. Morrow, WHO Languages Available: English (2004).

Infant Feeding Options in the Context of HIV: This document identifies the specific behaviours required of a mother or caregiver to act upon the infant feeding recommendations and informed choice policy of WHO, UNICEF, UNAIDS, and UNFPA. Languages Available: English (2004).

Mother-to-Mother Support for Breastfeeding- Frequently Asked Questions: Focuses on a support group method where experienced breastfeeding mothers model optimal breastfeeding practices, share information and experiences, and offer support to other women in an atmosphere of trust and respect. Languages Available: English (2004), French (1999), Spanish (1999).
